

JUNIOR EQUITY TRADER

Job Summary

The Junior Equity Trader will be responsible for inputting and executing trades on behalf of our clients. Strong candidates for this position will have experience using electronic trading platforms and algorithms to efficiently execute trades. This position is not for someone satisfied with being a cog in a wheel. The right person for this position is proactive, forward-thinking, detail-oriented and will seek to make a significant impact on the firm.

PRIMARY Responsibilities

- Inputting and executing U.S. equity trades
- Interfacing with the trading operations team
- Sending trade reports to clients
- Gathering trade data for clients
- During trading downtime, extracting data from SEC filings.

Requirements

- 1 - 3 years of experience trading U.S. equities
- Series 7, 63 and 55 licenses
- Strong Microsoft Excel skills, VBA programming a plus
- Bachelor's degree; MBA a plus
